

REPUBLICAN LEAGUE PLANS NOON SESSIONS

Will Announce Campaign Program at Meeting Tomorrow.

The League of Republican State Clubs will hold its first general meeting in its new quarters, 1408 H street northwest, tomorrow, when announcement will be made of arrangements for frequent meetings. A series of noon-day sessions, in co-operation with the Republican State committee of the District, is in prospect. It was announced by T. Lincoln Townsend, president of the league, who returned yesterday from New York.

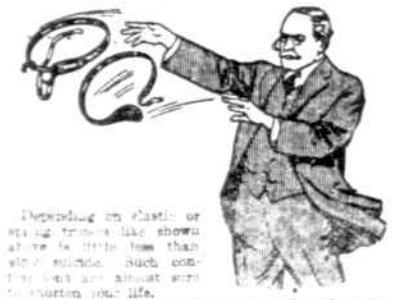

As a result of his conference with Chairman Willcox, of the Republican National Committee, and other prominent leaders, Mr. Townsend brought word that the campaign managers are confident that Charles E. Hughes will be elected, carrying New Jersey, President Wilson's home State.

The league is made up of representatives of organizations in the District and in twenty-four States, its membership being 2,000. Its staff of speakers will make four tours of States in this section.

The production of white arsenic in the United States in 1914 indicates an output amounting to 4,670 short tons, valued at \$213,147. This exceeds the largest previous output, that of 1913 (2,513 tons, valued at \$129,226), by 46 per cent.

Law Should Stop Sale Of Elastic and Spring Trusses

Such Misery-Causing Makeshifts Are the Ruptured Man's Worst Enemies.

Depending on elastic or spring trusses like shown above is like using a splint on a broken bone. Such makeshifts are the worst enemies of the ruptured man.

These makeshifts hold, even when worn so tight that they scarcely give a moment's peace. They simply cause a cure to wait.

They hold the hernia in place, but they do not cure it. They are yearly forcing thousands of people into making their lives by under-lying perils.

These makeshifts cause so much misery and such a shameful waste of money that the law should put a stop to their sale.

Don't Buy Anything for Rupture Without Giving It a Thorough Test.

There's only one reason in the world why you or any one else ever gets saddled up with a makeshift. It's simply because you trust to a mere try-out or a hasty examination instead of first making a thorough test.

A true or so-called "appliance" may seem all right when you first try it on and afterward prove utterly worthless.

The only way you can ever make sure of exactly what you are getting is by SIXTY DAYS' TRIAL—a thorough day-after-day test.

And there's only one thing of any kind whatever for rupture that you can GET on such a long trial—only one thing GOOD ENOUGH TO STAND such a long and thorough test.

That's our GUARANTEED rupture holder.

Only Thing Good Enough to Stand a 60-Day Test.

We'll make you a guaranteed rupture holder—make it to your measure—and let you give it a thorough 60-day test WITHOUT ASKING YOU TO RISK A CENT.

If it doesn't keep your rupture from coming out or bothering you in any way, no matter how hard you work or strain—if it doesn't prove every claim we make—then you can send it back and it won't cost you a single penny.

See What It Does.

This guaranteed rupture holder—the famous Cluthe

CHURCH PROCESSION TODAY.

Forty Hours' Devotion Services Begin at St. Patrick's.

The forty hours' devotion services will begin at St. Patrick's Church this morning at 11 o'clock, with mass celebrated by Rev. Father McNamara.

Following the sermon there will be a procession in the aisles of the church by the men and children of the parish, the children dressed in white and the men carrying candles.

Special music for the occasion will be sung by the two choirs, the sanctuary choir under direction of R. Mills Shilly, and the mixed choir under Miss Glennan, assisted by full orchestra accompaniment.

WANT RIGHT TO REINDICT.

Department of Justice Officials Begin Supreme Court Fight.

The Department of Justice yesterday afternoon began in the Supreme Court of the United States a fight to uphold the government's "right to reindict" when one indictment has been dismissed in court.

Assistant Attorney General Warren filed a brief in the court in the department's appeal from the New York City Federal District Court's dismissal of two indictments against H. Oppenheimer et al., on charges of concealing assets in violation of the bankruptcy laws. The dismissals were based on the statutes of limitations.

The production of white arsenic in the United States in 1914 indicates an output amounting to 4,670 short tons, valued at \$213,147. This exceeds the largest previous output, that of 1913 (2,513 tons, valued at \$129,226), by 46 per cent.

MONTH'S REALTY SALES AGGREGATE \$3,500,000

Transactions for September Total 525, Involving 1,131 Parcels.

In 525 real estate transactions recorded in September, involving 1,131 parcels of realty and \$3,500,000, a daily average of more than \$1 sales was maintained. The 121 transactions recorded in the last week were distributed as follows: Monday, 35; Tuesday, 28; Wednesday, 22; Thursday, 22; Friday, 26; Saturday, 19.

Fifty parcels of near-urban realty were transferred: outlying, 48; northwest, 45; northeast, 30; southeast, 20; southwest, 8.

Among the transfers were: Jacob J. Weaver, jr., to Guy S. Zepp, unimproved West Eckington land for about \$50,000; Madeline T. Mitchell to Central Building Company, property in Eighteenth street between G street and Pennsylvania avenue; Julius I. Peyer, John W. Glennan, and Charles J. Murphy, trustees, to Victor J. Evans and James Baird, and by them to the Central Building Company, property at 717 Eighteenth street northwest and 174-82 Pennsylvania avenue northwest, about \$55,000; Blue Ridge Heights Company to Thomas W. Stables, the Cliffbourne, 1855 Calvert street, \$45,000 trust recorded; Samuel H. and Ada Freind to George C. Snyder, Christian M. Horst, and Webster H. Wyand, trustees, Corby apartments, Third and C streets; Holding of the Central Building Company near Pennsylvania avenue and Eighteenth street, pledged to the Fidelity Trust Company for \$375,000, with the Union Trust Company as trustee.

The previous week's loan record was exceeded by more than \$300,000 with a total of \$778,246.65 borrowed on 152 lots; average interest rate, 5.7 per cent.

Other figures for the six-day period follow: Straight loans, \$594,235.15; notes for deferred payments, \$101,235.15; advanced to members by building associations, \$88,000; loans on county property, \$257,500.65; northwest encumbrances, \$454,650; southwest, \$2,300; southeast, \$17,155; northeast, \$16,240.
